Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

*I rely on my natural
progesterone prescription which is shipped
from Wisconsin to New York, as I have
adverse reactions to synthetic progesterone.
I resent that this right may be
taken away from me. Where were
the drug companies when I needed them
years ago? Now that I have found the
solution to my problems & needs I would
like to continue without unnecessary
interuption to my health care.*
